

MADE IN

SOLID SHEESHAM WOOD

★ Treated & Seasoned ★

MAKING THE DIFFERENCE

This is Where it Starts.

We source direct wooden logs, handpicked by our experienced selectors and brought to the manufacturing unit for further processes.

This is Where it Starts.

We source direct wooden logs, handpicked by our experienced selectors and brought to the manufacturing unit for further processes.

Getting in Size.

Our In-house saw machines cut the wooden logs into desired sizes to achieve the strength and stability in your wooden bed, sofa dining & everything else solid wood.

Treatment

Each & every piece of wood, however big or small, thick or thin, straight or not :), is treated with the industry specified techniques, making it termite resistance, Forever.

Seasoning the Wood.

More commonly known as drying the wood. As simple as it seems with the way we do it, it actually is a very scientific process. Maintaining the pressure levels, moistures, depending on the duration and atmosphere and get the right seasoning done, the right way.

Seasoning the Wood.

More commonly known as drying the wood. As simple as it seems with the way we do it, it actually is a very scientific process. Maintaining the pressure levels, moistures, depending on the duration and atmosphere and get the right seasoning done, the right way.

Now Making it.

And now the treated & seasoned wood planks are used by our experienced and skilled craftsmen to make your solid wood furniture the way you expect it to be.
